

### ZT1063 Hybrid Chassis GRAPHITE (for XRAY T4 '17~'19)

ZEROTRIBE

This product is a main chassis compatible with XRAY T4 '17 to '19. If you use Ver'17, please use it together with ZT1064. When used with Ver '18 and '19, this product is only available. You can also mount the 306532 aluminum chassis stiffener as a standard part of Ver'19.

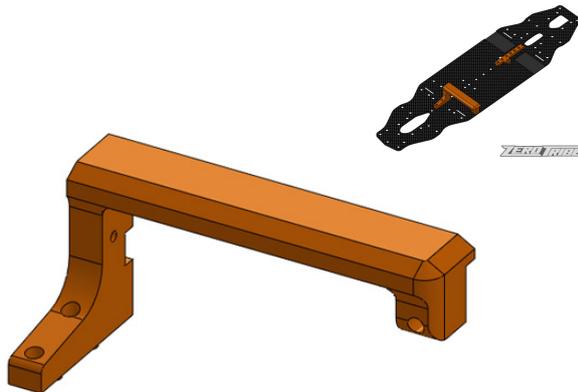

### ZT1064 ALU Motor Mount Plate (Dedicated for hybrid chassis)

ZEROTRIBE

This product is a necessary part when using ZT1063 with XRAY T4 Ver'17. You can also use it when you want to mount the motor mount for Ver'17 when you use Ver'18 or '19. The motor can be mounted on the outside by 1 mm by using the motor mount for Ver'17.

### ZT1065 ALU Floating Servo Mount Orange (Dedicated for hybrid chassis)

ZEROTRIBE

This product is an optional part of ZEROTRIBE carbon hybrid chassis, T4 MID conversion kit, T4 FWD conversion kit V2. The integrated aluminum type and the mounting from the servo front (upper part) provide a linear, direct feeling.  
※ Floating steering arm mount can not be used.

### ZT1066 ALU Floating Servo Mount Black (Dedicated for hybrid chassis)

ZEROTRIBE

This product is an optional part of ZEROTRIBE carbon hybrid chassis, T4 MID conversion kit, T4 FWD conversion kit V2. The integrated aluminum type and the mounting from the servo front (upper part) provide a linear, direct feeling.  
※ Floating steering arm mount can not be used.
